

Raviroop Singh Kohli

PRODUCT MANAGER | PROGRAM MANAGER

📞 +91-7508001323 [in LinkedIn](#) ✉️ raviroopsinghkohli@gmail.com

Product and Program Management leader with 9+ yrs of experience building and scaling products and leading complex programs in Defence, Aerospace and AI / SaaS. Looking to drive customer-centric Product Development at scale.

Work Experience

Ideaforge Technology Ltd | Product Manager (P&L Owner)

Jul'2024 – Present

- Own **end-to-end product lifecycle** for Zolt, ideaForge's largest UAV platform, and the Combat UAV segment — covering **MRD & PRD authoring, roadmap prioritisation, pricing, competitor benchmarking, and GTM strategy**.
- Collaborated with **R&D hardware & software** teams to **define requirements and drive delivery of cutting-edge capabilities**: AI-based target recognition, drone swarming, fire correction, and electronic warfare — **ahead of competition**.
- Maintained a structured **product backlog**, integrating inputs from **monthly Customer Success reviews**, weekly **Sales syncs, field trials**, and **customer demonstrations** to prioritise feature development and **drive adoption**.
- Conceptualised and executed ideaForge's **entry into the Combat and Tactical UAV** segments, securing **₹100 Cr+ in pre-launch orders** through capability demonstrations to the Ministry of Defence.
- Onboarded** ammunition technology partners, **reducing time-to-market by 12 months**, and enabling participation in **₹2,000 Cr+ Army procurements**.
- Built and managed a **strategic partnership ecosystem**. Established collaboration agreements with **Defence PSUs, DRDO labs, and international OEMs**, building a ₹2,500+ Cr MoD opportunity pipeline.

Vanilla Intelligence | Co-founder & Product Lead

Jul'2023 – Jun'2024

- Led product vision, roadmap, and **cross-functional delivery of an AI-powered legal intelligence platform** — including automated newsletter service, Supreme Court judgement summarisation engine, and client-facing chatbot.
- Managed a team of 4 (2 engineers, 1 marketer, 1 co-founder) using Notion, GitHub, and Figma; coordinated **weekly sprint-like reviews and feature iterations**.
- Extended platform to additional verticals: automated **social media agents** and YouTube channel newsletter summarisation tools for **SME clients**.

Indian Army | Operations & Programs Lead

Oct'2016 – Oct'2022

- Led end-to-end **audit and transfer of 8,000+ assets and 148 facilities** between two military regiments — a 4-month program involving senior civil and military stakeholders — with zero operational disruption and full stakeholder sign-off.
- Nominated **Cyber Security Officer**: led a 5-member team to achieve **100% compliance** across external quarterly cyber audits covering **400+ IT assets**.
- Developed capacity utilisation matrices, KPIs, and **performance monitoring** systems for **371 personnel** (20+ direct reports), achieving 90% unit capacity utilisation.
- Independently conceived, designed, and delivered a **Power BI analytics dashboard** digitalising 25 years of missile firing records — enabling data-driven training optimisation and continuous performance improvement.
- Independently built a **3D mapping tool** using **ArcGIS** and **open-source satellite data** — producing rugged, waterproof 3D maps of operational areas at a cost of ₹50/unit.
- Youngest officer in the unit's history to lead deployment of **250 anti-aircraft missiles** and command **85 personnel** during **active border operations** — successfully securing a critical border zone
- Qualified** and served as a trained **Air Defence Radar** and **Missile System** Operator and **Instructor** — operating, maintaining, and instructing on complex multi-sensor, radar-guided missile systems in live operational environments.
