Bangalore

Summary

- Strategic Delivery Leader 20+ years of experience orchestrating enterprise-scale AI and MLOps roadmaps, specializing in the deployment of high-impact predictive models via cloud-native architectures (AWS/Azure/GCP)."
- Redesigned key UI journeys using AI-driven predictive analytics (Decibel) and user sentiment data (Qualtrics), reducing user friction by 35% and boosting checkout conversion rates by 20%." Provide insights on Retail measurement (RMS) and Consumer Insights (CPS) using Nielsen data.
- Strategic Transition Leader with 10+ years of experience in setting up high-performing GCCs in India. Expert in process mapping, complex transitions, and stabilizing offshore teams to drive operational efficiency and cost savings. Proven success in reducing operating costs by 20% to 30%.

Professional Journey

Sep 2005- 2026

Infosys

Lead Consultant) (July 2022- till date)

- Visionary Data & Experience Leader with a track record of driving 30% productivity gains through Agile leadership of 20+ professionals. Expert in synthesizing AI-driven predictive analytics (Decibel) and user sentiment (Qualtrics) to transform digital journeys, resulting in a 50% increase in onboarding conversions and a 15-point rise in CSAT. Translated raw Adobe Analytics data into actionable UX recommendations, leading to the redesign of the checkout flow which improved overall site conversion by 10%.
- Results-oriented Delivery Lead specializing in the integration of Databricks Lakehouse and MLOps practices. Adept at managing cross-functional teams to deliver scalable AI solutions while utilizing Power BI to provide stakeholders with real-time visibility into project KPIs and model performance. Machine Learning Lead with expertise in orchestrating end-to-end Azure MLOps workflows for high-precision object detection. Expert in managing cross-functional teams to develop and deploy YOLOX models for critical infrastructure safety, specifically automating cross bore detection to mitigate underground utility risks.
- Detail-oriented Project Manager using tools like Project budgeting systems (PBS), Order Management system (OMS), allocation and de allocation of resources using ALCON, Milestone rescheduling and billing, Budgeted Vs Allocated efforts, Revenue sharing.

Shell on behalf of Randstad

Senior Business Analyst (Sep 2021- June 2022)

- Spearheaded the design and deployment of an end-to-end predictive forecasting software, utilizing Azure Machine Learning and Databricks, Snowflakes, Lakehouse to reduce forecasting error rates by 25%.
- Led the full life cycle development of a Machine Learning-driven analytics product, from data ingestion to Power BI visualization, enhancing stakeholder decision-making speed by 40%
- Implemented robust MLOps pipelines (CI/CD) on Azure DevOps, reducing model deployment time from weeks to hours and ensuring 99% production reliability.
- Established MLOps standards for monitoring, retraining, and governing models in production, increasing model performance stability by 30%.
- Optimized model inference costs by 35% through containerization and efficient resource management in Azure Databricks.

Emxcel Solution Pvt Ltd

Assistant Manager (May 2020 – June 2021)

- Leveraged AI to analyze customer feedback at scale, identifying key pain points to optimize the user experience and drive improvement in Net Promoter Score (NPS)."

Vardhman Textile

Assistant Manager (Feb 2018 – Oct 2019)

- Strategic Leader with a proven track record in building and scaling Market Research, Consulting, and Analytics capabilities. Expert in identifying high-value business opportunities through deep stakeholder engagement and securing board-level consensus on multi-million-dollar budgets and resource allocations. Dedicated to fostering high-performance cultures that drive top-tier customer retention, talent mobility, and cross-functional synergy to accelerate issue resolution.

Tata Consultancy Services

Senior Business Analyst (June 2010 – Jan 2018)

- Strategic GCC/ODC Establishment: Spearheaded the end-to-end setup of a 1000+ member Bengaluru GCC; accelerated time-to-BAU by 3 months while aligning local KPIs with global SLA structures.
- Business Transformation & Efficiency: Re-engineered 50+ critical business processes, eliminating redundancies to boost efficiency by 25% and reducing new-hire onboarding time by 40% through centralized knowledge management.
- Global Process Migration: Led the transition of core functions from the US to India, achieving a 30% reduction in operational costs and 99% 'Go-Live' accuracy through rigorous risk management and 6-month KT planning.
- Governance & Compliance: Stabilized offshore operations within 90 days post-migration; redesigned internal controls to eliminate regulatory exposure and ensure 100% compliance.
- Analyzed social media campaign advertising metrics to optimize ad spend, achieving a good return on ad spend (ROAS) and generating 10% in attributed revenue. Campaign performance measurement and optimization measuring the reach, resonance, and reaction.
- Market Intelligence & Brand Growth: Leveraged Nielsen Consumer Panel Data (CPS) and NIQ insights to refine segmentation, driving a 10% lift in brand loyalty and identifying high-value consumer profiles for seasonal campaigns.
- Strategic Retail Execution: Translated complex behavioral data into compelling category stories, securing prime retail placement and increasing All Commodity Volume (% ACV) distribution.
- Predictive Demand Modeling: Developed advanced forecasting models using Nielsen Nitro to predict category trends, significantly reducing understock incidents, and optimizing retail supply chain execution.

Ducker Worldwide

Market Analyst (June 2007-May 2010)

- Strategic Market Advisory: Orchestrated market entry strategies and due diligence for the Automotive and Heavy Equipment sectors, leveraging precise Market Sizing and CAGR forecasting to drive expansion.
- Executive Industry Intelligence: Cultivated a high-level network of industry experts, including the SIAM President and C-suite leaders, to extract proprietary insights for mission-critical client reports.
- Sector-Specific Subject Matter Expertise: Provided specialized market intelligence across high-stakes industries including Oil & Gas, Construction, and Automotive, transforming raw data into competitive-edge strategies.

Development and Research Services

Research Executive (Sep 2005-June 2007)

- Strategic Market Advisory: Orchestrated market entry strategies and due diligence for the Automotive and Heavy Equipment sectors, leveraging precise Market Sizing and CAGR forecasting to drive expansion.
- Business Development & Revenue Growth: Spearheaded the identification, bidding, and RFP preparation for large-scale market research mandates, expanding the firm's project pipeline and market presence.
- Research Design & Methodology: Architected comprehensive research tools, including PAN-India survey designs, sampling frameworks, and qualitative methodologies (FGDs/GDs) tailored for unique demographic segments.
- Operationalized Insights: Led end-to-end analytics planning and field briefing for high-visibility studies, ensuring data integrity from collection to final executive reporting.
