# VINOD MEGA

**PhD ( Cybersecurity) | CISO | Digital Transformation & ERP (SAP, Oracle, Dynamics 365) | Delivery Excellence | Information Security | AI/ML | PMP, CISSP, PgMP | AI Project / Program Management | Agile Practitioner & Coach | SAFe Scrum Professional**

## Core Competencies

- **Strategic Planning:** Developed IT roadmaps for global enterprises, aligning business and technology goals with OKR-driven frameworks.
- **Project & Program Management:** PMP, PgMP, SAFe Scrum, Agile, Lean/Six Sigma, Jira, ServiceNow, Microsoft Project, Asana, Trello & insurance technology platforms
- **Budgeting & Financial Management:** Managed multi-million-dollar IT budgets, optimizing costs by 25%.
- **AI & ML:** Predictive analytics, TensorFlow, PyTorch, AI-driven automation
- **Delivery Excellence:** Achieved 95% on-time delivery, 90% client satisfaction, and 20% cost savings through Agile methodologies and optimized ERP/CRM/HRIS deployments
- **Vendor & Partner Management:** Negotiated contracts for ERP and cloud services, optimizing costs by 20%.
- **Process Optimization:** BPMN, Lean/Six Sigma, cycle time, process yield, CSAT, value stream mapping.
- **Experienced Agile Coach:** Partnered with senior leadership to design agile operating models, coached multiple teams and leaders, and led enterprise-wide agile transformation initiatives.
- **Generative AI & Machine Learning:** AI-Driven Automation, ML Model Deployment (TensorFlow, PyTorch), Predictive Analytics
- **IT Infrastructure:** Cloud Infrastructure (AWS, Azure, GCP), Server Optimization, ServiceNow (ITSM, ITOM, HRSD).
- **ERP & CRM Systems:** SAP S/4HANA, Oracle NetSuite, Microsoft Dynamics 365, SAP SuccessFactors, Salesforce (Sales Cloud, Service Cloud, Apex, Visualforce, Lightning Components), Salesforce Integration (MuleSoft, APIs), Greytip HR, University ERP etc
- **SAP Project Management** | SAP S/4HANA | SAP Activate | SAP BTP | Fit-to-Standard | Blueprinting | Configuration
- **Cloud Security:** AWS Guard Duty, Azure Sentinel, Secure CI/CD, IAM, Key Vault (99.9% uptime)
- **Stakeholder Engagement:** Investor Relations (\$7M funding), Executive Reporting, Cross-Functional Collaboration
- **Leadership:** Mentored 50-100+ global engineers, drove OKR implementation, and fostered innovation with Change Management
- **Governance, Risk & Compliance:** Ensured adherence to global IT policies, SOX, NIS2, DORA, NIST CSF, MITRE ATT&CK, ISO 27001, ISO 42001, USFDA, HIPAA, GDPRSOX, NIST CSF, IRDAI insurance compliance, CDSCO reducing vulnerabilities by 85%.

## PROFESSIONAL SUMMARY

Professional Summary PMP-certified IT leader with over 15+ years of experience driving \$5M+ SaaS, ERP, and technology portfolios, insurance technology platforms, achieving 97% on-time delivery, 30% process efficiency gains, and 90% customer satisfaction (CSAT). Expert in SAP S/4HANA, Oracle NetSuite, Microsoft Dynamics 365, and Salesforce CRM, with proficiency in Lean/Six Sigma, **SAFe Scrum**, BPMN, and tools like Jira, ServiceNow, Microsoft Project, Asana, and Trello. Skilled in operational transformation, process optimization, stakeholder management, and change management, delivering scalable, secure solutions aligned with business goals.

Proficient in Agile (Scrum, SAFe, Kanban), PMO governance, ServiceNow, and AWS, mentoring high-performing teams to deliver scalable, secure solutions.

### Software Delivery & Leadership

- Spearheaded multi-stream software development initiatives across ERP and SaaS platforms, optimizing resource allocation for parallel Agile sprints
- Directed full-cycle product delivery—from requirements analysis to deployment—

across global teams,  
achieving 20% reduction in  
rollout delays

- Collaborated with cross-functional stakeholders to align sprint outcomes with client onboarding milestones in healthcare, HR tech domains, Retail, Manufacturing, IT services & Product development.

#### AI & Innovation

- Pursuing PhD at UCLA focusing on AI-driven threat intelligence and compliance automation, bridging cybersecurity with emerging technologies
- Contributed to GenAI and machine learning research pipelines; actively evaluating reinforcement learning and vision AI for real-world governance use cases

#### Technical Project Execution

- Managed vulnerability response and CI/CD flows across hybrid environments including AWS and Azure; ensured audit readiness and ISO/SOC2 alignment
- Led API-first integration using REST/JSON and secure data exchanges across Java-powered ERP and SaaS modules

#### Key Achievements:

- ✓ **97% on-time project delivery** across 30+ global projects (USA, India, Singapore, Europe)
- ✓ **25% cost savings** via optimized Agile workflows and cloud infrastructure
- ✓ **\$7M funding secured** by aligning cybersecurity strategies with investor expectations
- ✓ **80% reduction in vulnerabilities** through DevSecOps & NIST CSF compliance

## EXPERIENCE

### VP of Engineering

GoKhana

Oct 2025 – April 2026

Bangalore

- Spearheaded the technology strategy and roadmap, aligning engineering initiatives with business goals.
- Spearheaded **AI PMO governance** for food-tech initiatives, ensuring structured delivery of AI/ML projects.
- Led design and implementation of scalable, cloud-native microservices architecture, improving system performance by 40%.
- Introduced agile delivery frameworks and DevSecOps practices, reducing deployment times by 30%.
- Strengthened cybersecurity posture with NIST CSF and ISO 27001 compliance, reducing vulnerabilities by 70%.
- Mentored a cross-functional team of 40+ engineers, fostering a culture of innovation and continuous learning.
- Launched 3 new product modules with 95% on-time delivery across 15+ projects.
- Led the development and deployment of an AI-powered recommendation system, improving customer satisfaction by **99%** and increasing sales by **95%** by leveraging **Agile methodologies** and **cloud-based delivery** on AWS.
- Coached engineering managers and product leaders to adopt agile behaviours across pods.

### CISO – Co Founder

Confidential Healthcare Startup

Jan 2024 – Sep 2025

Los Angeles, CA

- *Technical Leadership:* Delivered **FDA-compliant SaaS platform** (21 CFR Part 11) via AWS/Azure.
- Led the development and implementation of a comprehensive **information security strategy**, ensuring compliance with **industry standards** and achieving a 95% reduction in security incidents.
- Secured \$7M funding by aligning **NIST CSF**-compliant strategies with investor goals, driving onsite collaboration and 99.9% uptime with open-source CI/CD pipelines on AWS/Azure.
- Engaged with investors to secure funding, presenting cybersecurity strategies and compliance roadmaps, resulting in \$5M in seed funding and 100% investor confidence in regulatory compliance.
- Developed IT strategies aligning with business goals, leveraging AWS/Azure to drive efficiency and reduce costs by 20%.
- Implemented cybersecurity best practices, ensuring **SOC 2 and HIPAA** compliance across systems.
- Collaborated with execs to align tech capabilities with market growth, delivering scalable solutions.

### Director of Engineering & Process

Excellence - Bangalore

Greytip Software

Sep 2019 – Jun 2023

- Company Overview: SAAS Based Product Company specializing in HR & Payroll solutions

✓ **Mentored 100+ engineers**, fostering high-performing teams in ERP & AI

## CERTIFICATIONS

- Project Management Professional (PMP), PMI | 2017
- Program Management Professional (PgMP), PMI | 2020
- SAFe® 6 Scrum Master
- Certified ScrumMaster (CSM), Scrum Alliance | 2016
- PMI Agile Certified Practitioner (PMI-ACP) | 2018
- Certified Information Systems Security Professional (CISSP) | 2016
- Six Sigma Green Belt | 2018
- ITIL V3.0 Certified | 2012
- Governance, Risk Management and Compliance Professional (GRCP), OCEG | 2022

- Managed complex projects, boosting dev efficiency by 15% through agile and security process enhancements. Successfully integrated the product into SAP S/4 HANA systems.
- Enhanced performance by 35% using Lean and Six Sigma for process excellence, coaching 70+ engineers.
- Drove strategic planning and cross-team collaboration, delivering high-quality solutions on tight schedules.
- Facilitated large-scale agile events across global teams, aligning product roadmaps with business goals.
- Oversaw program management for HR and payroll solutions, integrating ServiceNow HRSD and SAP S/4HANA, boosting system scalability by 100%.
- Led DevSecOps initiatives, embedding cloud security (AWS Shield, Azure Security Center) into CI/CD pipelines, reducing vulnerabilities by 80%.
- Managed project delivery using Jira and Agile methodologies, achieving 15% faster development cycles and 95% on-time delivery for 20+ projects.
- Boosted performance by 35% using Lean/Six Sigma and architecture frameworks, mentoring 70+ engineers onsite with Agile (SAFe) and Jira.

### Global Delivery Head

Dec 2018 – Aug 2019

RootNyc – New York, USA

- Directed program management for SaaS healthcare platform, implementing PMO governance to achieve 95% on-time delivery, 15% cost savings, and 90% CSAT for US clients using Salesforce CRM and AWS infrastructure.
- Aligned product roadmaps with business goals through stakeholder collaboration in five countries, enabling entry into two new market segments.
- Reduced vulnerabilities by 85% using NIST Cybersecurity Framework and HIPAA-compliant practices, ensuring secure delivery for global healthcare clients.

### Head-Technical Project Management & University SAAS ERP Delivery – Bangalore

Sep 2017 – Sep 2018

iolite Technologies Pvt Ltd

- Spearheaded SaaS product development, achieving 90% delivery timelines and improving system scalability by 15%.
- Developed strategic plans for ERP, AI, and infrastructure deployments, aligning with organizational growth objectives, achieving 90% delivery timelines and 15% scalability improvements.
- Led project management for SAP S/4HANA and Oracle NetSuite implementations, achieving 90% delivery timelines and 15% scalability improvements.
- Developed custom ServiceNow App Engine workflows for ERP integration, reducing manual processes by 30% and enhancing user adoption by 85%.
- Implemented cloud security best practices for Azure-based ERP systems, using Azure Key Vault, reducing security incidents by 80%.

- Mentored 50+ engineers on ERP and DevSecOps, improving team efficiency by 10% through Agile SDLC and standardized processes.

### **AVP-Engineering & Process Excellence**

Jan 2014 – May 2017

Retail on Consulting – New York

- Company Overview: IT Services – Ecommerce on Magento 1.x to 2.x
- Managed program management for e-commerce and ERP platforms, migrating Magento 2.x and Microsoft Dynamics 365 to AWS, improving scalability by 20%.
- Led SAP SuccessFactors implementation, automating HR workflows and achieving 90% user adoption across global teams.
- Implemented ServiceNow ITSM and Confluence for ERP workflow automation, reducing incident resolution times by 40%.
- Strengthened information security with GDPR-compliant ERP processes, reducing risks by 75% through regular audits.
- Directed cloud security for Azure ERP deployments, integrating secure APIs and achieving 99.9% uptime.

### **Co-Founder & Head-Managed IT Services & ERP Delivery -**

Jan 2010 – Dec 2013

Value Info solutions Pvt Ltd India, USA & Singapore

- Led PMO for ERP (SAP S/4HANA, Oracle NetSuite, Microsoft Dynamics 365) and infrastructure programs, defining governance processes and cadences to achieve 100% scalability and 20% cost savings across 25+ global projects.
- Directed program management for ERP and IT infrastructure implementations, achieving 100% scalability and 20% cost savings across SAP S/4HANA, Oracle NetSuite, and Microsoft Dynamics 365.
- Managed global data center operations and network upgrades, improving infrastructure performance by 30% and supporting 25+ projects.
- Manage software product architecture, design and development for new and existing product
- Led a team of 25 engineers to successfully deliver a large-scale software project, improving system scalability by 100% and reducing infrastructure costs by 20% through effective program management and cross-functional collaboration
- Create scalable processes and definitive scope around implementation services
- Implement systematic processes for tracking and reporting on the implementation status
- Maintain a highly skilled team of Implementation Managers and manage team allocation to maximize resources and output
- Direct the activities of the implementation team to meet client needs and create successful partnerships
- Lead team to complete process analysis, design/redesign of multiple workflows and processes to ensure that they are customer-focused, consistent, effective and efficient and in compliance with company standards
- Formulated strategic IT roadmaps for ERP, AI, and infrastructure programs, driving 20% cost savings and 100% scalability across 25+ global projects.

- Utilized ServiceNow ITSM and Jira for project, AI, and infrastructure tracking, achieving 95% on-time delivery.

## EARLY CAREER

- **Project Manager**, Wipro, USA (2008–2010): Achieved 95 percent delivery via PMO governance.
- **Software Engineer**, Siemens, Bengaluru (2002–2005): Improved system performance by 70 percent.

## EDUCATION

- **Master of Science in Computer & Information Science**  
Boston University, Charles River Campus, Boston, MA | Oct 2007 | GPA: 3.9 / 4.0
- **Bachelor of Engineering in Computer Science**  
Bangalore University | 2002
- **Ph.D. in Cybersecurity** (Sep 2025)  
University of California, Los Angeles (UCLA), Los Angeles, CA
