

BARATH VIKRAM M V

Operations Manager

10+ Years | Supply Chain & Data Operations | Process Automation | Power BI
Bangalore, India | mvbharatvikram@gmail.com | +91 9901430447

PROFESSIONAL SUMMARY

Operations Manager with 10+ years driving supply chain and data operations across global SaaS and logistics environments, leading cross-functional teams of up to 10 people. Delivered 18% TAT reduction saving 1,200 hours annually and \$250K in yearly automation savings through SQL workflow transformation. Expert in SLA/KPI governance, process optimisation, continuous improvement, Power BI analytics, vendor management, and end-to-end supply chain operations management. Brings a track record of zero audit breaches, 20% productivity gains, and AI-driven automation strategies that scale operational capacity without proportional headcount growth.

KEY ACHIEVEMENTS

\$250K saved annually | Automated validation workflows using SQL across supply chain data pipelines

18% faster TAT | Streamlined end-to-end supply chain processes, saving ~1,200 hours per year

30% error reduction | Engineered automated data validation frameworks, eliminating manual processing bottlenecks

20% productivity gain | Designed and deployed structured L&D programme for teams of 6-10, reducing escalations by 35%

15% SLA improvement | Implemented real-time KPI monitoring dashboards and governance frameworks using Power BI

Zero audit breaches | Built compliance and risk frameworks adopted across multiple operational functions

10% cost savings | Drove procurement cost reduction through vendor consolidation and capacity planning

25% data accuracy | Built Power BI dashboards reducing issue detection time by 40% across data operations

CORE SKILLS

Operations Management & Strategy | SLA, KPI & Performance Management
Process Optimisation & Continuous Improvement | Capacity Planning & Headcount Planning
Stakeholder & Vendor Management | Data Analytics & Reporting
Workflow Automation & Digital Transformation | Root Cause Analysis & Escalation Management
Risk, Compliance & Governance | Cross-Functional Team Leadership
Budget Management & P&L Exposure | Supply Chain Operations

TOOLS & TECHNOLOGIES

Power BI | Advanced Excel | SQL | o9 Solutions Platform | E2open Platform | MS Office Suite

PROFESSIONAL EXPERIENCE

Associate Operations Manager

o9 Solutions, Bangalore | Jul 2024 – Present

- Led end-to-end supply chain operations strategy for a team of 6–10, aligning execution with business KPIs and OKRs.
- Streamlined supply chain turnaround processes using SQL-driven workflows, reducing TAT by 18% and saving 1,200 hours annually.
- Deployed multi-stage quality control frameworks, reducing process defects by 12% and achieving zero audit breaches.
- Designed compliance and risk governance strategies, maintaining 100% regulatory adherence across all operational audits.
- Drove procurement cost optimisation through vendor consolidation and capacity planning, delivering 10% cost savings.
- Orchestrated structured L&D programme for 6–10 team members, improving productivity by 20% and reducing escalations by 35%.

- Built Power BI operational performance dashboards, enabling real-time SLA/KPI monitoring and data-driven decision-making.

Staff Analyst

E2open, Bangalore | Mar 2024 – Jul 2024

- Led a team of 7 analysts, implementing SLA governance frameworks that improved SLA performance by 15% within 4 months.
- Strengthened data governance protocols using SQL validation rules, reducing data errors by 20% across client deliverables.

Senior Analyst

E2open, Bangalore | Sep 2021 – Feb 2024

- Spearheaded data quality improvement programme using root cause analysis, achieving 25% increase in data accuracy.
- Built Power BI dashboards for supply chain data monitoring, reducing data inconsistencies by 40% and cutting issue detection time by 40%.
- Engineered automated data validation workflows using SQL, reducing manual effort by 30% and saving ~\$150K annually.

Analyst

E2open, Bangalore | 2016 – 2021

- Designed real-time data governance dashboards using Power BI, improving compliance tracking efficiency by 35%.
- Implemented continuous improvement initiatives across data operations, reducing recurring process errors by [X]%.

Associate Analyst

E2open, Bangalore | 2015 – 2016

- Improved data quality by 22% through systematic data profiling, cleansing, and validation framework design.
- Reduced recurring data errors by 28% by building reusable SQL-based validation frameworks for client operations.

Associate Analyst

Amber Road, Bangalore | 2013 – 2015

- Delivered client supply chain operations with 100% accuracy and on-time fulfilment across all assigned accounts.
- Improved operational efficiency by 30% through automation initiatives on manual client reporting workflows.
- Enhanced operational throughput by 18% through process redesign and workflow standardisation.

EDUCATION

MBA – Business Management | DBIT, Bangalore / VTU University | 2011–2013

B.Com | SSMRV, Bangalore University | 2008–2011

CERTIFICATIONS

Business Analytics using Power BI
