EXPERIENCE

PRODUCTION OPERATIONS MANAGER - KYB HEAD-, 04/2025 - Current *Revolut*, Bangalore, India

- Heading KYB operations at Revolut, leading 250+ employees and 15 team leaders, ensuring seamless execution of regulatory and operational KPIs.
- Owned vendor operations strategy, improving Active Time, productivity, and SLA compliance through structured governance and performance frameworks.
- Delivered measurable efficiency gains by implementing process optimization, performance tracking, and workforce planning initiatives.
- Built and developed frontline leadership by coaching Team Leaders, improving team performance, engagement, and succession readiness.
- Monitored quality control measures to maintain high standards.
- Collaborated with other departments to resolve operational problems quickly and efficiently.

PRODUCTION OPERATIONS MANAGER - L&D HEAD-, 03/2024 - 03/2025 *Revolut*, bengaluru

- Headed the Learning & Development function for FinCrime Services, leading 12 trainers and driving capability development for 4,500+ global employees.

- Led enterprise-level Upskilling & Certification Program (UCP) initiatives, significantly enhancing operational efficiency and workforce readiness.
- Defined and executed training strategy, onboarding framework, and continuous learning programs, ensuring alignment with regulatory and operational requirements.
- Delivered 25% reduction in onboarding time through training optimization, improving speed to productivity without compromising quality.
- Developed comprehensive training program for new employees in production department, facilitating smoother onboarding and integration.
- Executed rapid deployment of process and regulatory training updates, achieving high compliance and operational accuracy.
- Managed Karma performance framework, governing KPIs linked to bonus outcomes for 4,500+ FinCrime employees, ensuring fairness and performance alignment.
- Ensured >95% regulatory training compliance across the organization, maintaining adherence to strict compliance and audit requirements.

PROGRAM MANAGER II, 07/2022 - 03/2024

Amazon Development Center, bengaluru, India

- Oversaw all abuse programs for IN marketplace, ensuring alignment with global standards and local regulations.
- Designed comprehensive SOPs tailored to address various abuse vectors specific to the Indian market, ensuring local compliance and operational efficiency.
- Managed the development and implementation of Standard Operating Procedures (SOPs) for the MDR abuse vector across global Amazon operations.
- Partnered with cross-functional teams to pinpoint key risk areas and enhance process efficiency, resulting in streamlined operations.
- Identified areas of improvement in existing processes, procedures and systems related to the program delivery cycle.
- Enhanced reporting protocols, leading to a significant reduction in processing times and improved response rates.
- Led training sessions for stakeholders on updated procedures, promoting a culture of compliance and proactive risk management.
- Successfully maintained a robust framework that mitigated risks associated with MDR abuse, contributing to overall operational stability.

OPERATIONS MANAGER II, 12/2019 - 06/2022

Amazon, Bengaluru, India

- Oversaw the operations of Amazon's last mile warehouses across southern regions, specializing in heavy and bulky product logistics.
- Launched Amazon's last mile station with Synergy, resulting in significant cost savings.
- Launched upcountry stations to enhance distribution network and ensure efficient delivery of large items.
- Established and integrated a new warehouse facility, leveraging synergies with small product warehouses to optimize space and resources.
- Managed and governed third-party logistics partners, ensuring operational excellence, SLA adherence, and customer delivery performance.
- Executed daily delivery operations across multiple stations during peak periods, maintaining a customer-centric environment.

ASSISTANT MANAGER, 11/2013 - 12/2019

Bosch, bengaluru, India

- Led the planning and optimization of the prepacking line process, which significantly reduced cycle times and improved throughput.
- Streamlined lean production systems across inbound and outbound logistics as well as manufacturing, resulting in a 15% increase in operational efficiency.
- Implemented workflow strategies that minimized waste and enhanced resource allocation, achieving annual cost savings exceeding \$100,000.
- Collaborated with crossfunctional teams to integrate processes and uphold quality standards, promoting a culture of continuous improvement.
- Trained team members in lean methodologies, improving team engagement and performance.
