PROFESSIONAL SUMMARY: Strategic and customer-centered Product Manager with 15+ years of experience driving digital learning transformation across K–12 platforms. Skilled in Agile product leadership, UX collaboration, data-driven decision-making, and cross-functional execution. Proven track record in building scalable learning experiences, reducing defects, and delivering measurable instructional and business impact.

CORE SKILLS: Product Strategy • Road mapping • Agile Product Management (Scrum/SAFe) • User Stories & Prioritization • Release Planning • Data-Driven Decision Making • UX & Accessibility • Market and Competitive Intelligence • Stakeholder Management • Cross-Functional Leadership • EdTech LMS Solutions • Curriculum Management • Instructional Designing • Teaching & Pedagogy

WORK EXPERIENCE:

Product Manager, Academian Inc (Feb 2024 – Present)

Skillset: Customer-Centric Product Strategy, Strategic Product Road Mapping, Metrics & Outcomes, Data-Driven Decision Making, Cross-Functional Leadership, Market & Competitive Intelligence, Go-to-Market Strategy, Scaled Agile (SAFe) Portfolio Prioritization & Epic Definition, Human-Centred UX & Design

Key Achievements and Impact:

- Led customer-centric product strategy by synthesizing insights from 300+ teachers and students, increasing feature adoption by 35% and reducing support tickets by 25%.
- Built and executed multi-year product roadmaps, improving delivery predictability to 95% on-time releases while balancing innovation, compliance, and technical debt.
- Aligned cross-functional teams across engineering, design, curriculum/content, QA, and leadership to deliver 5 major feature launches within two quarters, improving organizational efficiency.
- Conducted competitive and market intelligence across top EdTech players influencing two strategic roadmap pivots and strengthening product differentiation.
- Authored SAFe-aligned epics and lean business cases that improved PI planning accuracy and reduced feature spillover by 20% across multiple agile teams.
- Integrated human-centered UX and accessibility principles, streamlining interfaces and improving student task efficiency by 25% while enhancing WCAG compliance.
- Acted as the voice of the customer, resolving high-priority issues and launching scalable solutions that led to a 50% decrease in reported bugs post-release and improved product reliability.

Product Owner, Focus Edumatics Pvt Ltd (Oct 2020 – Jan 2024)

Skillset: Agile Product Ownership (Scrum/SAFe), Backlog Management & Prioritization, User Story Definition & Acceptance Criteria, Stakeholder Engagement & Communication, Value-Driven Delivery, Release Planning & Coordination, Customer & Market Insights, Cross-Functional Team Collaboration

Key Achievements and Impact:

- Improved sprint predictability by 30 percent through disciplined backlog refinement and prioritization practices.
- Reduced requirement ambiguity and rework by 25 percent by delivering clear user stories with detailed acceptance criteria.
- Increased customer task success by 20 percent by using user feedback, analytics, and usage insights to guide backlog decisions.
- Led end-to-end release readiness across multiple deployments, ensuring stable launches with minimal post-release defects and a consistent user experience.
- Enhanced stakeholder alignment through structured demos, requirement workshops, and transparent communication, enabling smoother decision-making and sprint execution.
- Drove continuous improvement by integrating user experience insights, removing blockers, and fostering collaboration resulting in more intuitive, learner-focused experience.

CS Curriculum Lead, iPRIMED Education Solutions (Apr2020 – Oct 2020)

Skillset: E-learning Curriculum Development & Management, Content Development, Instructional Design

Key Achievements and Impact:

- Lead, mentor, and manage a team of subject matter experts and content developers on implementation of e-learning curriculum and product deliverables from ideation to execution.
- Plan and strategize a learning path for product team with systematic innovation in design and learning practices.
- Develop a range of courses for learning curriculum of K-12 segment using a wide range of teaching and learning strategies and methodologies.
- Perform instructional design checks in collaboration with instructional design team to meet product needs to align with learning objectives.
