

MOHIT KUMAR

Senior Leader | Customer Experience | Quality | Training | Process & Business Excellence
Bangalore, India | +91-7337860325 | mohit.anmo@gmail.com | linkedin.com/in/mohitanmo

PROFESSIONAL SUMMARY

Strategic leader in Customer Experience, Quality, Training, Operations, and Business Excellence with 17+ years of experience across BPO and contact center environments. Proven track record of driving enterprise-wide transformation, operating models, and governance frameworks to improve CX, productivity, and business performance.

Led AI-driven digital transformation initiatives including CRM automation, intelligent quality, and analytics-led decision-making to enhance customer journeys, sales effectiveness, revenue, and service efficiency. Strong expertise in optimizing end-to-end operations and CX metrics (CSAT, NPS, FCR, conversion, AHT) through data-driven governance and process excellence.

Certified Six Sigma Black Belt, skilled in leveraging Lean Six Sigma and advanced analytics (Power BI) to deliver measurable impact. Known for building high-performing teams and enabling organizations to scale through digital, data-led, and process-driven transformation.

PROFESSIONAL EXPERIENCE

National Head – Quality, Training, Process & Business Excellence *Dec 2024 – Dec 2025*
Star Health Insurance | Bangalore, India

- Managed a Pan-India QA and Training team of 320+ professionals including Managers, Assistant Managers, Team Leaders, and Quality Analysts.
- Established enterprise-wide Quality Assurance governance and audit frameworks aligned with IRDAI compliance standards.
- Built a centralized Learning & Development ecosystem including LMS, certification frameworks, and structured coaching models.
- Improved CSAT, NPS, and FCR through structured coaching, quality monitoring, and performance analytics.
- Implemented structured new-hire onboarding, refresher programs, and certification tracks aligned with business KPIs.
- Integrated compliance and process-adherence training to meet regulatory standards.
- Implemented AI-powered speech analytics and automated call quality monitoring to drive efficiency.
- Introduced a Kanban framework to track call quality feedback and sales opportunities, enabling faster coaching and improved revenue outcomes.

- Developed structured leadership competency models covering people management, decision-making, and performance coaching.

Senior Manager – Process Excellence & Customer Success*May 2023 – Nov 2024*

Infra.Market | Bangalore, India

- Led CX transformation, quality governance, and operational excellence programs across sales, supply chain, and customer support functions.
- Designed standardized SOPs, governance models, and product lifecycle processes to ensure consistency and compliance.
- Led CRM and ERP design and transformation initiative, streamlining workflows and improving data visibility.
- Implemented automation workflows and customer journey analytics to enhance service delivery.
- Designed and deployed LMS-based learning journeys, assessments, and tracking mechanisms for continuous capability building.
- Executed a Six Sigma project to identify supply chain bottlenecks and improve inventory flow, resulting in enhanced on-time delivery performance.

Manager – Process Excellence (US Operations)*Jan 2021 – May 2023*

Amazon | Bangalore, India

- Drove process excellence for Amazon MyHR Live Support by analyzing service workflows, improving resolution efficiency, and enhancing employee experience.
- Managed end-to-end US healthcare payer operations including eligibility verification, claims processing, and prior authorization.
- Handled claims lifecycle management: submission, adjudication support, denial management, and appeals.
- Ensured compliance with HIPAA regulations, payer guidelines, and quality standards across all operations.
- Implemented risk-based quality governance models, improving service reliability and audit outcomes.
- Led a Six Sigma DMAIC project to optimize Amazon MyHR Live Support processes, improving First Contact Resolution (FCR) and reducing average resolution time.

Program Manager – Process Excellence*Sep 2018 – Dec 2020*

Unacademy | Bangalore, India

- Implemented enterprise quality dashboards, scorecards, and audit frameworks to ensure consistent performance monitoring.
- Deployed an Online Reputation Management (ORM) platform to proactively manage brand and customer feedback.
- Developed KPI dashboards and performance governance frameworks, enabling data-driven decisions and improving team efficiency by 15%.

EARLIER CAREER EXPERIENCE

- Assistant Manager – Process Excellence | Landmark Group (Jan 2016 – Jul 2018)
- Team Leader – Customer Success | Flipkart (Aug 2014 – Dec 2015)
- Team Leader – AMEX Collections (US Process) | Altisource (Jan 2011 – May 2014)
- Team Leader – Equifax Support (US Process) | Sitel India (Sep 2005 – Jul 2010)
