- Strategic Project Management
- Data Visualization & Executive Reporting (Power BI)
- Global Stakeholder Engagement
- Process Redesign & Operational Efficiency
- Agile Delivery & Cross-Functional Team Leadership
- Knowledge & Change Management
- SharePoint Governance | Power Platform | R | Python

Work Experience

Name of Organization: Eli Lilly Private Limited

Designation: Process Transformation Manager

Duration: December 2019 - Present

Location: Bengaluru

Roles and Responsibilities:

1. Strategic Initiatives & Results:

- Spearheaded digital transformation projects across finance and global supply chain, delivering >\$10K in recurring cost savings via low-code/no-code automation tools.
- Led cross-functional team to deploy a compliance management platform across 40+ global affiliates, increasing audit readiness and risk visibility by 70%.
- Designed and implemented a performance reporting suite for CFO leadership, integrating real-time KPIs across global finance units through Power BI dashboards.
- Guided architecture of a unified governance & internal audit tool, adopted globally to track affiliate compliance against regulatory and internal benchmarks.
- Spearheaded the end-to-end program for the development and deployment of a materials ordering optimization tool, aligning cross-functional teams to streamline the ordering process. Drove reduction in manual interventions, resulting in a time savings of 10–12 resource hours a week per manufacturing site and improved operational efficiency across multiple locations.
- Directed the development of a Power BI dashboard to consolidate and analyze distribution-related issues across multiple sites. Enabled data-driven root cause analysis, providing leadership with actionable insights that led to a 20–30% reduction in material wastage and improved site-level operational performance.

2. Team Leadership & Change Management:

- Managed migration of 8,000+ legacy SharePoint pages to modernized digital workspace, enhancing user adoption and navigation.
- Facilitated knowledge enablement through curated digital content, job aids, and self-serve financial planning tools.
- Collaborated across functions (IT, Finance, Supply Chain) to align business needs with scalable technical solutions.
- Led stakeholder engagement sessions with manufacturing site teams to map current-state processes and uncover pain points related to distribution complaints. Identified systemic gaps and directed the development of a centralized complaint registration tool, enabling standardized tracking across multiple IDAP sites and manufacturing sites, thereby enhancing traceability and issue resolution efficiency.

Name of Organization: TATA Consultancy Services

Designation: Business Process Lead, Business Process Management

Duration: October 2018 – November 2019

Location: Mumbai

Roles and Responsibilities:

Process Improvement

- Conducted end-to-end diagnostic assessments of internal workflows, delivering process maps and redesign recommendations that reduced handoffs and improved efficiency.
- Institutionalized process documentation libraries to support scaling and onboarding for business units.

Name of Organization: Prudential Global Services

Designation: Analyst, Knowledge Services

Duration: October 2017 – September 2018

Location: Mumbai

Roles and Responsibilities:

Business Process Management

- Supported strategic transformation team in designing business processes using Visio and Erwin, ensuring alignment with evolving governance models.
- Enabled smoother regulatory reviews by centralizing process SOPs and review tracking systems.

Name of Organization: Deloitte Support Services Pvt. Ltd.
