

PROFESSIONAL SUMMARY

Growth and product strategy leader with 8+ years of experience building and scaling revenue engines for SaaS and venture-backed startups across global markets. Proven track record of designing PLG growth engines, pricing architecture, and monetization strategies driving rapid ARR expansion. Built and led cross-functional growth teams spanning product, marketing, sales, lifecycle, and RevOps to scale acquisition, activation, and revenue expansion

Key achievements include: Scaled SaaS ARR \$20K → \$2M in 10 months | Built PLG growth engine increasing conversion 3× | Designed global pricing and monetization strategies across India, SEA, ME, and Europe | Built 12-member growth organization spanning product growth, marketing, sales enablement, and RevOps

PROFESSIONAL EXPERIENCE

Sporensprouts | Co-Founder & Growth Head | Venture-built functional superfood brand

Mar 2025 – Present

- Growth Strategy & D2C Acquisition
- Scaled new functional nutrition brand to ₹2.5L MRR within 4 months by building omnichannel GTM across D2C, marketplaces, and retail distribution..
 - Expanded product portfolio 1 → 5 SKUs and introduced B2B distribution, reducing demand concentration and improving revenue stability.
- Product Innovation & Operations
- Designed vertically integrated production and supply chain enabling ~80% gross margins across functional mushroom product line
 - Scalable retail expansion enabled by establishing full regulatory backbone — FSSAI, trademark, & GMP certification and standardized operational processes.

Salescode.ai (B2B SaaS — AI Sales Agent) | AVP Growth | AI sales automation platform for enterprises

Dec 2024 – Feb 2025

- GTM Strategy & Demand Generation
- Built an enterprise pipeline of 77 FMCG companies (60 days) by defining ICP, & pricing strategy for the company's first AI Sales Agent- building full GTM motion.
 - Converted pipeline into 37 enterprise demos within 3 months by building full-funnel acquisition engine across outbound prospect & inbound demand gen.
- Monetisation & Pricing Strategy
- Redesigned pricing architecture across India, SEA, ME, and Europe aligning AI product capabilities with regional willingness-to-pay and LTV/CAC economics.
 - Built freemium-to-paid monetization framework for SMB segment, driving expansion revenue through analytics, automation, and integrations upsell modules.

Scalenuit (B2B/B2C SaaS) | Director, Growth | Led 12-member growth organization across product growth, marketing, and RevOps

Apr 2022 – Dec 2024

- PLG & Growth strategy
- Scaled ARR \$20K → \$2M in 10 months by building experimentation-driven PLG growth engine across acquisition, activation, and monetization
 - Increased free to paid conversions 0.4% → 1.5% (CC/NCC) & 2% → 5% (FC) by redesigning user flows, onboarding sequences, & lifecycle marketing across cohorts.
 - Designed pricing and packaging experiments during Black Friday campaign resulting in 5× subscription growth (100 → 570).
 - Drove 9% MRR growth by identifying expansion opportunities through product usage analytics and launching add-on modules for existing paid customers.
- Product Strategy & Experimentation
- Increased activation 15% and SMB conversion 3× by redesigning onboarding flows using behavioral segmentation and product analytics.
 - Reduced churn 3% by building behavioral retention flows that redirected churn-intent users to alternative modules and offers.
 - Built experimentation framework across homepage, onboarding, and pricing surfaces, improving conversion by 9%.
 - Scaled sales conversion from 12% → 28% by designing integrated product-led demo journeys across product, email lifecycle, and sales touchpoints.
- GTM — New Products & Market Expansion
- Launched 3 new products from POC to market by defining GTM strategy, ICP, brand positioning, & pricing, across different geographies & user segments.
 - 14% revenue uplift achieved by executing cross-sell campaigns to existing paid base — structuring cross-sell as NRR improvement & expansion revenue lever.
 - Led Product Hunt launch strategy resulting in Product of the Day ranking and 4× traffic spike to the platform.
 - Doubled monthly sales calls by deploying in-product prompts and qualification experiments that converted high-intent users into demo requests.
 - Expanded outbound pipeline by running targeted LinkedIn, Facebook, and Google campaigns across high-value geographic segments.
 - NPS improved -5% → +20% in target geographies by implementing structured VoC processes — surveys, user calls, & in-product feedback loops.

KEC International (RPG Group) | Strategy & Business Transformation Manager

Aug 2020 – Mar 2022

- Digital Transformation & Strategic Initiatives
- Led PMO strategy across ₹2,500 Cr infrastructure portfolio spanning 15 projects, driving cost optimization & digital transformation initiatives across business units.
 - Planning efficiency improved 40% → 85% by rolling out micro-planning templates for different projects; saved ₹25 Cr.+ via inter-site spare materials portal.
 - ~₹35 Cr. in cost savings delivered by cutting TSS construction time 11 → 3 months via hybrid agile methodology, & reducing excess copper usage from 21% → 5%.

Alstom | System Designer | Youngest recipient of Exemplary Performance Award (1 of 3,000+) across R&D, Project Execution, & Strategy

Jul 2016 – Mar 2019

- Ideated and designed 2 new products to automate and upgrade ERTMS technology (European Rail Traffic Management System).
- Processing time reduced 66% by leading implementation of automatic software integration for the factory platform.

Core Skills

Growth & Product Strategy : PLG growth, monetization strategy, growth loops, activation funnels, feature adoption, retention strategy, Experimentation frameworks

Analytics and Tools: Product analytics, funnel Analysis, cohort analysis, mixpanel, GA4, hubspot, CRM, SQL

GTM: ICP Definition, SaaS Sales Funnels, Enterprise GTM, Demand Generation, Pricing Optimization, Lifecycle Marketing

EDUCATION

- Indian School of Business (ISB) | PGPM — Strategy · Operations · Public Policy | Consulting live project — Livspace
- 2019 – 2020
- NIT Warangal (NITW) | B.Tech, EE | Mitacs Globalink International Research Intern- awarded (by Canadian Govt.) to top 0.05% students globally.
- 2012 – 2016
