PROFESSIONAL SUMMARY

Startup operator with 9+ years building and scaling business operations in fast-growing SaaS companies. Trusted partner to founders and C-suite executives, with hands-on ownership of 0-to-1 setup of India operations, analytics frameworks, Customer Relationship Management (CRM) systems, and go-to-market growth initiatives. Proven ability to operate in ambiguity, drive cross-functional execution, and deliver measurable business impact through data-driven decision-making. Strong people manager with a track record of leading high-performance teams in high-velocity, resource-constrained environments.

CORE COMPETENCIES

Chief of Staff Operations | 0-to-1 Business Building | Strategic Operations | Startup Scaling | Founder Partnership | Project Management | Revenue Operations | Go-To-Market (GTM) Strategy | CRM Analytics (HubSpot) | Lead Generation & Pipeline Management | Market Research & Intelligence | KPI Design & Dashboards | Process Automation | Vendor Management | Team Leadership | Cross-functional Collaboration | Budget & Forecasting

WORK EXPERIENCE

Senior Manager

Price Easy – Bangalore, Karnataka | February 2022 – December 2025

Promoted from Business Analyst → Manager → Senior Manager

- Partnered directly with the Founder to build and scale India operations, serving as the primary owner for analytics, market research, and operational setup from ground zero (0-to-1).
- Built India business operations from scratch, establishing workflows, vendor models, and analytics frameworks that enabled 5x business growth.
- Designed and launched market intelligence and pricing analytics capabilities to support market entry, customer targeting, and revenue strategy.
- Built and owned lead generation and Customer Relationship Management (CRM) analytics using HubSpot, improving pipeline visibility, lead quality, and sales conversion rates.
- Created founder-facing executive dashboards and Key Performance Indicator (KPI) frameworks covering revenue performance, productivity, and unit economics.
- Led, mentored, and managed a team of 10+ analysts and managers, driving high-velocity execution in a fast-changing startup environment.
- Drove automation of core research, reporting, and operational processes, reducing administrative overhead by 30% and improving turnaround times by 20%.
- Owned vendor evaluation, onboarding, and performance management, aligned with startup growth speed and evolving business requirements.
- Supported go-to-market (GTM) initiatives including trade shows, channel partnerships, and outbound targeting campaigns.

Business Analyst

Essilor India Pvt. Ltd. – Bangalore, Karnataka | August 2019 – February 2022

- Delivered monthly executive performance reports and data insights supporting regional sales and leadership decision-making.
- Conducted market and sales analysis to identify trends, growth drivers, and performance gaps, informing go-to-market strategy.
- Partnered with sales and commercial teams to translate data into actionable recommendations that improved revenue outcomes.
- Implemented and managed a third-party inventory tracking system across distributor locations, improving data accuracy and operational visibility.
- Supported budget planning and performance tracking, enabling proactive management reviews and corrective actions.

- Facilitated cross-functional stakeholder meetings to gather insights, align priorities, and drive process improvement initiatives.

Senior Financial Analyst

Northern Trust – Bangalore, Karnataka | April 2016 – August 2019

- Managed client back-office operations and reporting with strict adherence to Service Level Agreements (SLAs) and quality standards in a global financial services environment.
- Delivered daily and monthly client reports and dashboards, supporting operational and management decision-making.
- Reduced critical issue resolution time by 50% (from 2 hours to 1 hour) through process improvements and root-cause analysis.
- Conducted pricing and valuation analysis for non-traded securities, resolving system discrepancies and supporting accurate client reporting.
- Designed analytical dashboards for client review meetings, improving transparency and issue resolution.
