WORK EXPERIENCE

Dell Technologies

Manager - Professional Services (Bangalore) (Jan 2020 - Jun 2025)

Oversaw comprehensive financial management, including revenue forecasting, budgeting, invoicing, pricing, scheduling, and partner spend analysis for programs valued at over \$2M.

- Directed DT Select accounts, RDC transformation programs, remote delivery initiatives, and Intake team operations to provide high-impact deployment services synchronized with strategic client outcomes.
- Established the strategic direction for RDC operations through partnerships with senior leadership, enhancing delivery performance, improving customer satisfaction (CSAT/eSAT), and bolstering program success.
- Guided teams through change management protocols, boosting morale and improving productivity across various initiatives.
- Unified metrics across Amer RDC geographies through galvanizing cross-functional teams focused on delivery, revenue, margin, and KPIs, enhancing operational synchronicity.
- Optimized strategies and cost control measures to achieve a 25% residency uplift across American and Indian operations.
- Improved customer experience and resource utilization by delivering a 30% efficiency gain in Service Readiness Design (SRD).

Achievements:

- Improved revenue churn by 40%, cut costs by \$2M annually via partner optimization, and enhanced time-to-value by 20% year-over-year as RDC Lead for FY25 Q3.
- Enhanced EPS/automation adoption to 75%, among the highest globally, through strategic leadership.
- Led a design shift across 7+ product lines, delivering over 98% eligible work, thereby influencing global strategy.

Acer

Manager - Strategic Business Unit - Managed Services (Bangalore) (Apr 2018 - Jan 2020)

Oversaw budgeting, SWOT analysis, resource planning, and cash flow forecasting to drive profitable delivery outcomes.

- Shaped the overall business strategies for the Strategic Business Unit resulting in accelerated sales and improved client engagement activities.
- Led growth strategies for the Managed Services portfolio by forging new collaborations and increasing funding for international Centers of Excellence.
- Supplied expertise in ServiceNow best practices to enhance operational capabilities.
- Delivered end-to-end program lifecycle management for over 40 projects, ensuring adherence to defined scope, schedule, quality, and budget parameters.
- Implemented governance frameworks to streamline stakeholder management and total quality control, thus boosting overall efficiency.
- Coordinated with vendors and internal teams to facilitate streamlined business processes and ensure alignment of service delivery with client-specific needs.

- Defined sales enablement strategies to discover new business opportunities and to augment revenue streams within existing target accounts.

Achievements:

- Devised joint Go-To-Market (GTM) strategies with major telecom partners like Airtel, Tata, and MTS, resulting in a \$4 million qualified sales pipeline.
- Conducted budgeting, SWOT analysis, resource planning, and cash flow forecasting to ensure profitable service delivery outcomes

Microland

Associate Manager - Managed Services (Aug 2017 - Apr 2018)

Directed strategic initiatives, set clear performance metrics, and continually improved processes within the department. Led the pre-sales team for managed services business (RFP, Proposal)

- Delivered pre-sales support integrating domain knowledge to secure new Fortune 50 Enterprise clients and two government clients globally and across India.
- Effectively lead transformation initiatives for Datacenter Solutions improving efficiency and resource utilization.
- Oversaw the Infrastructure, DC, & EUC portfolio, providing strategic direction for IT infrastructure and third-party interfaces for a peak team of 110 associates.
- Managed content governance protocols and maintained platform integrity, ensuring seamless, secure digital experiences for end-users.

Achievements:

- Leveraged service delivery analytics and data-driven insights to enhance workflows and optimize resource allocation.
- Improved departmental performance through the application of strategic initiatives, clear KPIs, and continuous process improvement.

DXC Technology (Formerly named as CSC)

Service Delivery Manager - GDN Tools & Data Deployment (Noida) (Sep 2013 - Aug 2017)

Enabled continuous improvement of business operations and efficiency through technology solutions aligned with user-centric needs reinforcing technological excellence through continuous process optimization and workflow automation.

- Directed end-to-end delivery and management of a digital data transformation program within the ESM region.
- Provided strategic leadership to a team of 75, ensuring Managed Service Support for essential applications.
- Implemented Business Continuity Plan and Disaster Recovery processes, and communicated key insights to senior leadership/stakeholders.
- Oversaw a comprehensive Data Migration Plan ESM - ServiceNow by aligning with strategic business objectives. Contributed towards seamless execution.
- Advised on ServiceNow best practices, supported audits, and managed compliance reviews to minimize issues.
- Engineered solutions for effective change process management.

Achievements:

- Designed, developed, and optimized critical ServiceNow applications and workflows, that streamlined business needs.
- Provided functional & technical consultation to junior developers with code and configurations.
- Delivered performance-oriented solutions that enhanced operational efficiency and effectiveness

Royal Bank of Scotland

I&A Manager - Risk & Compliance (Feb 2005 - Mar 2011)

Managed risks and compliance functions aligning with IT infrastructure needs.

- Focused on securing IT infrastructure, specifically Active Directory, Identity Risk & Compliance, systems administration, and access management.
- Maintained adherence to stringent ITIL-compliant procedures in all operational activities.
- Pioneered security protocols enhancing infrastructure integrity and compliance adherence.
- Applied the DSS - Decision Support System to scrutinize historical change data supporting decisions.

Achievements:

Improved the success rate of change implementations by 11% with decision-making using data derived from historical analysis

Wipro Limited

Consultant (India, London, Singapore) (Feb 2005 - Mar 2011)

Collaborated with Department Heads to identify process improvement opportunities which resulted to operational cost reduction.

- Managed intricate projects for international banking and telecommunications clients; steered global business operations in IT security risk management.
- Optimized customer satisfaction by strategically improving access, onboarding, and data management processes within ServiceNow.
- Employed risk assessments and managed change effectively to enhance operational workflow, and bolstered system stability and security for stakeholders.

Achievements:

Reduced operational costs by \$23K through process enhancements identified in cooperation with Department Heads. Improved customer satisfaction through improvements to access, onboarding, and data management processes in Service Now.
