

RESUME

Sandeep Kumar Yadav

Location: India (Karwar, Karnataka)

Phone: +91 9347705734

Date of Birth: 12 Sept. 1986

Email: skyalka@gmail.com

PROFESSIONAL SUMMARY - Technical Program and Operations Manager with 21+ years of experience in naval platforms, systems viz Radar, EW, Navigation and communication, Submarine electrical networks, BESS, Vertical Launch Missile, Torpedo and mission-critical system integration. Experienced in managing technical programs from requirement definition and RFP preparation through installation, testing, and operational deployment. Background includes long service in the Indian Navy followed by industry experience supporting advanced naval radar systems. Skilled in OEM coordination, reliability improvement, quality compliance, and stakeholder management in high-reliability environments.

CORE COMPETENCIES

- Technical Program & Project Management
- Naval Systems Integration (Surface and Submarine Platforms)
- Radar, Navigation and Communication Systems (including Modbus (RTU/TCP), serial interfaces (RS-232/422/485), and Ethernet TCP/IP)
- SCADA / Industrial Control Systems
- Root Cause Analysis (RCA) and Corrective and Preventive Actions (CAPA)
- Vendor, Contractor and OEM Coordination
- Technical Operations and Customer Support
- Quality Compliance (MIL-STD – 810 and 461, JSS, ISO- 9001 based processes)
- System Testing, Acceptance and Commissioning
- Technical Training and Documentation.

PROFESSIONAL EXPERIENCE

Customer Support Manager – Leonardo India | Jun 2025 – Present

- Provide technical and operational support for 3D AESA Radar systems used by the Indian Navy.
- Act as the primary interface between Naval users, OEM engineering teams, and internal support functions.
- Manage defect investigations, root cause analysis, and corrective actions to improve system reliability and uptime.
- Coordinate maintenance planning, configuration control, and documentation updates for in-service systems.
- Conduct training and technical briefings for Naval personnel on Radar operation and maintenance.

Indian Navy | 2004 – Feb 2025

Technical Manager - Submarine SCADA Simulator Project | 2022 – Feb 2025

- Led a project to develop a SCADA-based electrical control system simulator for submarine training.
- Defined technical requirements, scope of work, and project milestones in coordination with naval stakeholders.
- Prepared RFP documentation including technical specifications and evaluation criteria.
- Coordinated with industry partner teams during design, development, validation, and system acceptance.
- Ensured documentation, testing, and configuration control processes for long-term maintainability.

Manager Electrical – Nuclear Submarine Platform | 2017 – 2022

- Managed maintenance and operational readiness of electrical and electronic systems (Radar, Sonar, EW, Communication, Vertical Launch Missile) onboard nuclear submarine platforms.
- Developed preventive maintenance procedures to improve system reliability and reduce operational failures.
- Conducted inspections, testing, and compliance activities aligned with naval technical standards.
- Supported collaboration with national R&D organizations on development of radiological monitoring equipment.
- Assisted in system integration and troubleshooting across industrial communication networks and onboard control systems.

Project Manager – Naval Shipbuilding & Platform Integration | 2014 – 2016

- Managed installation and commissioning of mission-critical systems during shipbuilding and modernization programs.
- Coordinated with dockyards, OEMs, and technical teams for equipment installation, testing, and acceptance.
- Oversaw factory acceptance tests, system integration testing, and operational validation prior to deployment.
- Participated in vendor evaluation and technical discussions during procurement and project execution.

Project Manager – Conventional Submarine Platform | 2006 – 2013

- Managed maintenance, testing, and troubleshooting of submarine electrical and electronic systems (Radar, Sonar, Torpedo and Missile).
- Conducted failure investigations and implemented corrective actions to prevent recurrence of technical issues.
- Utilized diagnostic and test equipment for system validation and fault isolation.
- Supervised technical teams responsible for system maintenance and operational readiness.

AWARDS AND RECOGNITIONS

- **2022:** Chief of Naval Staff Commendation.
- **2017:** Flag Officer Commanding-in-Chief Commendation.

EDUCATION

- **2022:** Diploma in Labour Law and Administration (Annamalai University, Tamil Nadu)
- **2020:** MBA in Operations Management (IGNOU, Delhi)
- **2015:** B.Tech in Electronics and Communication (Institution of Engineers (India), Kolkata)
- **2012:** B.Sc. in Electronics Technology (CUSAT, Kerala)
- **2006:** Diploma in Electronics (INS Valsura, Indian Navy)

PROFESSIONAL TRAINING AND CERTIFICATIONS

- **2026:** Project Management. (IIT Roorkee)
- **2025:** Advance Radar Technology. (Leonardo S.p.A, Italy)
- **2024:** Six Sigma (6σ). (IIT Kharagpur)
- **2017:** Certified in Leadership and Team Management. (INS Agrani, Indian Navy)
- **2015:** Radiation Protection Course, Green 'Q'. (Nuclear Power Plant, Kalpakkam)
- **2014:** Information Technology Specialization Course. (INS Valsura, Indian Navy)
- **2007:** NBCD and Fire Fighting. (INS Shivaji, Indian Navy)
