Home: Mahadevapura, Outer Ring Road Road, Bengaluru, 560016 Bengaluru (India)

Professional Abridgment

Skilled with 4 + years Work Experience in Circuit design and Hardware test Validation, Seeking a Challenging Position in Leading Company.

- Currently associated with Granite River labs Bangalore as Hardware Engineer.
- Familiarity with equipment maintenance and calibration to ensure Smooth and Uninterrupted production.
- knowledge on consumer electronic analog/digital circuits, Digital communications, high speed digital interface, interconnect.
- Hands on expertise with silicon/prototype bring-up, system level verification and PCB debugging.
- Experience on system level PCB Schematic design and review, BOM management and Component selection.
- Strong ability to collaborate with cross-functional teams to integrate & develop system solutions, to deliver quality products with the best user experience.
- Hands on experience on Digital Oscilloscope, Signal Generator, Logic Analyzer, DMM and LCR meter.
- Strong problem-solving skills to address any production related challenges and find innovative solutions.
- Understanding of RF concepts like: S-Parameters, Cable loss Measuring, Calibration of RF Instruments.
- Experience in Testing of card level and package level of Flight Transponders.
- Well Experienced in handling of ESD components.
- Excellent communication skills, dependable, well organized and highly resourceful.

Technical Skills

I2C Protocol
SPI Protocol
USB
UART
Circuit design
Hardware validation

Utilized Tools

OrCAD
TINA TI
LT Spice
LabView
ALTIUM
CADENCE ALLEGRO

Programming languages

Basic Embedded C Program
Basic Python

Project Profile

Project#1

Company : Granite River Labs (From Feb 2023 onwards)
Location : Bengaluru, India
Project : **GRL-C3-MP-TPR/TPT**
Profile : **Senior Engineer**
Role : Simulation, Prototyping and Test, ADC Calibration and PCB Debug and Trouble shooting.
Part of multi-disciplinary team, supporting the firmware and software teams for debug, testing and integration. And Interacting with the mechanical team for extracting requirements of external interface, connectors etc.

Description

The GRL-C3-MP-TPR/TPT is an all-in-one solution, designed to make Qi testing more accessible by providing developers with a safe, secured, and reliable way to tackle unique challenges in testing, debugging, and designing Qi2 wireless charging Products. A built-in Authentication Validator helps you to solve the new authentication feature of Qi2 standard.

Project#2

Company : Granite River Labs (From May 2022 onwards)
Project : **GRL-C2-GEN2-EPR**
Profile : **Associate Hardware Engineer**
Role : Board bring up, Debugging, functional test, Circuit Design, Creation of BOM, Simulation
Selecting the components, Unit calibration and Verification.

Description

GRL-USB-PD-C2-EPR (C2-EPR) automates the process, providing USB Power Delivery compliance testing at up to 240W at the push of a button. A comprehensive API portfolio enables users to run sample scripts, or program them in C# and Python. And the Power Suite Pro Application takes users beyond traditional compliance.

Project#3

Company : Aidin Technology (From April 2021- May 2022)
Project : **IRNSS-1J** (Indian Regional Navigation Satellite System)
Client : **ISRO**
Profile : RF Testing Engineer
Role : Board bring up, functional test, soldering, Validation, Thermal & Vibration Test.

Description

This is a independent regional navigation system designed to provide accurate position information service to assist in the navigation of ships in the Indian Ocean Region .C-Band Receiver is meant for on-board spacecraft telemetry tracking and ranging of remote Sensing. It operates in the Frequency of 4-8 GHz.

Project#4

Company : BEL (Bharat Electronics Limited) (From Feb 2020-April2021)
Project : **MCEU** (Multi Communication Encryption Unit)
Profile : Graduate Trainee
Role : PCB level testing and troubleshooting, quality inspection, Preparing Test documents.

Description

Multi-Communication encoding refers to the ability to serve multiple simultaneous streams from captured video or voice sources. This is most useful for making a media source available to many destinations for immediate consumption (live streaming) and later consumption (on-demand streaming).

Education Credentials

- **Bachelor of engineering**
RV College of engineering [Aug 2016 – May 2019]
City: Bengaluru | Country: India | Website: <https://rvce.edu.in/>
- **Diploma in Electronics and communication Engineering**
DACG Polytechnic [Aug 2012 – May 2015]
City: Chikkamagaluru | Country: India | Website: <https://gpt.karnataka.gov.in/gdacgptchikmagalur/public/en>

Major Strengths

- Strong determination to succeed.
- Highly organized - can priorities work schedules, manage time effectively and meet deadlines.
- Quick learner and Smart worker.
- Flexible and adapt quickly to new working environments.
- Work independently and as part of a team.

Personal Details

- Languages Kannada, English, Tamil and Telugu
- Permanent Address Vokkalagere (Post),
Yagati hobli,Kadur Taluk
Chikkamagaluru District-577180
