Career Objective & Summary

Dynamic and engaging Engineer with 5 years of career experience as Component engineer, provides training in different circuit drawing tools and procedures. Experienced in Component selection, Datasheet interpretation and alternatives in Defense and Aero space field. Possesses excellent presentation and communication skills.

Professional Experience (5 years)

Data transformation Analyst-1

Accuris

Bengaluru, Karnataka-560037

September 2024*

Achievements & Roles

- Datasheet interpretation, data capturing and classification on electrical and electromechanical components such as Sensors, Discrete, passive components, connectors, wires, RF/Microwave devices and analog IC, SEMI Components using IHS Tool.
- Quality checking of reports and Strong knowledge in alternatives of components

Component Engineer

Aeronautical Development Agency

October 2022–September 2024

Bengaluru, Karnataka-560037

Achievements & Roles

- Involved in PLM of futuristic aircrafts and Technical specification preparation
- Experienced in Capital Logic, Capital Harness XC and Component Library creation.
- Involved in wire, cable selection and Drawing wiring diagrams and schematics, PCB Layout design. Conducting pre-installation check
- Collaborating with cross-functional teams, including design, manufacturing, quality, Risk analysis procurement to review Bill of materials for accuracy and compliance.
- Strong knowledge and work experience with both industrial standard (UL, CE, CSA, IPC, SEMI) as well as MIL standards.

Senior Robotics Engineer

Ore Equipe Robotics Research Centre

January 2021–July 2022

Kochi, Kerala– 682017.

Achievements & Roles

- Experienced in **ROBOTICS & Drone Development**
- Experienced in Sensors and microcontroller based projects
- Component selection by following Datasheet interpretation and Derating checking

Education

B.Tech in Electronics & Communication Engineering

CGPA 7.19

APJ ABDUL KALAM KERALA TECHNOLOGICAL UNIVERSITY

2016-2019

Diploma in Electronics Engineering

CGPA 8.59

BOARD OF TECHNICAL EDUCATION

2013-2016

IPT & GPTCS HORANUR, KERALA

Certification

PG Diploma in Powertrain Architecture of Electric Vehicle

Additional Skill Acquisition Program, Government of Kerala 2023

Projects

DESIGN AND DEVELOPMENT OF EXTERNAL LIGHTING SYSTEM FOR MODERN COMBAT AIRCRAFT

- Actively involved in Design and Development of external lights for modern aircraft.
- Component level verification of schematics diagram with PL, PML and De-rating and Thermal derating documents and finalizing all design documents along with design drawings and master drawing index.
